2028 CUSTOMER TRIP

The phrase “Pura Vida” can be heard throughout Costa Rica. Simply translated, it means “pure life” or “full of life.” But in Costa Rica, “Pura Vida” is more than just a saying, it is an emotion. It’s a way of life that accurately describes the adventure and wonder that await. And once you’ve visited Costa Rica, you’ll understand the true meaning of “Pura Vida.”

Bordered by the Pacific Ocean and the Caribbean Sea, it is no surprise that Costa Rica’s name translates to “rich coast.” And Costa Rica’s commitment to conservation is evident in its extensive network of national parks and protected areas, which cover more than a quarter of the country, making it a global leader in ecotourism. With a landscape blessed with majestic volcanoes, misty cloud forests, stunning river valleys, and hundreds of beaches, Costa Rica offers visitors an intense array of environmental attractions.

But, Costa Rica is more than a vacation destination; it is an interactive sensory experience, with an amazing diversity of monkeys, butterflies, birds, wild cats, lizards, snakes, frogs, sloths, marine life and turtles all living together in unison.

From mountain ranges and rain forests to active volcanoes and cloud forests to breathtaking beaches, Costa Rica’s diversity of landscapes, climates and natural wonders provides visitors with unlimited experiences.

We at All Surfaces invite you to join us for six days and five nights exploring “Nature’s Playground” and discover what makes Costa Rica special.

Visit us at www.AllSurfacestravel.com for more information and to enroll.
